Giving Thanks Craft

Celebrate this season by creating a leaf wreath full of all the things you are thankful for!

1. First decide if you'd like to use real leaves or paper leaves.
2. There are many ways to preserve real leaves for this project, like dipping into paint or using glycerin.
3. Create the circle shape using a base, like card stock or wire.
4. Using a sharpie marker, write something you are thankful for on each of the leaves.
5. Glue the leaves to the circle frame until the surface is covered.
6. Place the wreath in your home or on your door to spread the feeling of gratitude this holiday season!
7. Share a picture of your creation by emailing it to
