Nature in your hands

Leaf Garlands!

Fall is here and there are leaves galore! Decorate for the season by making your own leaf garlands. Grab your baskets, go for a hike, and collect a bunch of different colorful leaves!

Once you have your leaves...

Gather some materials: sewing needle, string/rope, scissors, hole punch, and pencil.

Using a sewing needle, string together the leaves (you can also use a hole punch or pencil to make a hole in the leaf and string your rope through).

Hang your garland or wear it like a necklace!
