Homes for Magical Creatures

Dear friends,

The fairies of Baltimore Woods left us a message and we need your help!

Winter is coming and they need homes to be built to keep them cozy! You can build them anywhere you want!

Fairy House Rules

1. To build you must not use anything living. So that to the woodland fairies we are only giving. A gift of a home made from materials not picked but found, such as twigs, rocks and cones down on the ground.
2. Please also use only natural things for a fairy home, this means no plastics or Styrofoam. Our tiny winged friends watch to see if their homes are safe and clean, if they are good enough for the animals, perhaps fairies will be seen.
3. It is especially important for you to have fun, because building fairy houses is awesome!

Invitation

(read this when you're finished or create your own!)

With caring hearts and hands we build your houses
today

So please now won't you come visit and play?

We would love to see your magical homes! Please send a picture of your creations to connect@baltimorewoods.org
