Thankful Turkey Craft

Celebrate this season of giving by creating a craft to share what you are thankful for!

Start with a piece of construction paper and use the fold lines as a guide to cut the paper into strips.

Once you have equal strips of paper you can cut feather like shapes into them! Fan the paper feathers out to create a turkey tail!

Grab a toilet paper roll to be the turkey's body and add on a silly face and beak!

Each day write something you are thankful for on the turkey's feathers and use them as a festive centerpiece at dinner time! Share a photo of your thankful turkeys with us by emailing them to connect@baltimorewoods.org
