Nature in your hands

Nature in Your Home

You don't always have to go outside to find nature, this week we are going on a scavenger hunt in our homes to discover things from nature that are inside with us! Check off the items that you have in your home and think about where in nature they came. Happy exploring!

A houseplant

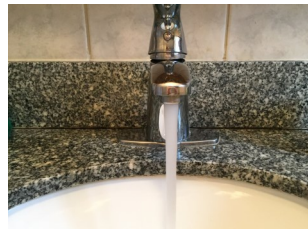

An animal (pets and bugs count!)

Wood

Paper

Water

Fruits/Vegetables

Write on the lines below anything else from nature you've found in your home that is not already listed!
