# Winter Color Hunt

It's easy to get lost in the greys, browns, and whites of a winter wonderland but there are other colors hiding in this wintry world too! This week go on a winter color hunt to find all of the colors hiding among us.

To help your eyes look, pick up some paint chips from a local hardware or paint store. Can you find the colors of the paint chips in our winter wonderland?

Make a list below of all the colors you find.
