Brandy Colebrook

Executive Director, New York State Agricultural Land Trust

Brandy has spent most of her 20 + year career working for non-profits in the environmental field. She has a true passion for environmental education and was an outdoor educator for 5 years before moving to Syracuse. She worked as an agricultural programs director for Refugee and Immigrant Self-Empowerment before becoming the Executive Director of the New York Agricultural Land Trust. Originally from a small town in Indiana, Brandy received a bachelor's degree in wildlife biology from Purdue University. She also served as a Peace Corps Volunteer in Benin, West Africa where she initiated and led an environmental education program for high school students. Brandy was a board member of the Syracuse-Onondaga Food Systems Alliance for three years and is currently Vice-President of the Syracuse Latin School PTO. She also recently graduated from the Gifford Foundation Nourishing Tomorrow's Leaders program. Her 13 year old son has attended Baltimore Woods programs since he was 5 years old and has always loved coming to hike on the trails. In her free time she enjoys hiking, backpacking, camping, skiing, sewing, and running.

Cody Harrington, PhD

Assistant Professor, Childhood/ Early Childhood Education at SUNY Cortland

Cody is a professor of teacher education at SUNY Cortland with 20 years of experience in the education field - ten as an elementary teacher and ten as a teacher educator/researcher. Her specialty is STEM education, especially mathematics education. Twice a year she gets the opportunity to take her college students to the Adirondacks for a three-day, two-night outdoor education experience at Camp Huntington on Raquette Lake. She looks forward to this trip every semester because she gets to bond with her students and get them excited about integrating outdoor education into their future classrooms. Originally from Denver, Colorado, she moved to Syracuse about three years ago. She loves living in Central New York because the summer and fall times are beautiful. One of her favorite activities is hiking with her dog to the amazing waterfalls of CNY - Fillmore Glen State Park being her favorite so far.

Gregory McGee

Associate Professor of Environmental Biology at SUNY ESF

Greg is an Associate Professor of Environmental Biology at the SUNY College of Environmental Science and Forestry, Syracuse, where he teaches General Ecology and Ecological Monitoring & Biodiversity Assessment, and has pursued a research program in the maintenance of biodiversity in managed forests. He and his wife Karen are 23-year residents of the Town of Skaneateles, and regular visitors to Baltimore Woods. Greg has partnered with the Center on past research and instructional activities and is eager to support Baltimore Woods by serving on the BOD and participating with the Stewardship Committee.

Jennifer Stratton

Biology, Earth Science, and Agriculture Teacher at Marcellus High School

Jenny graduated from Hamilton College in 2002 with a BA in Geology. She spent 10 years running a small-scale diversified vegetable farm in Vermont and later in New York. While farming, Jenny started substitute teaching, and to her surprise, discovered she enjoyed being an educator! Jenny earned her MAT in Adolescent Education - Earth Science from Colgate University in 2012 and taught high school science for the Syracuse City School District before transitioning to the Marcellus School District in 2018. Jenny teaches Biology, Earth Science, and Agriculture classes at Marcellus High School. She is currently working toward completing an additional MS in Food and Agribusiness from SUNY Morrisville to further her knowledge of the agriculture industry. Jenny looks forward to forging connections between Marcellus Schools and Baltimore Woods Nature Center as a board member. Jenny and her family live on 40 acres of forested land near Otisco Lake, where she enjoys paddleboarding, hiking, gardening, and tending to her houseful of pets.
